SUMMARY

Bringing forth expertise in UI / UX, front-end programming, testing and responsive UI. Transitioning from design to development, I found the excitement of crafting user experiences through code. I excel in collaborative, communicative teams and bring a unique blend of technical and design skills. Committed, motivated and driven to staying current with the latest technology trends and the tech world. I'm looking for an environment where I can collaborate, grow, and expand on my experience. Currently, I'm exploring technologies such as headless CMS and AWS.

EXPERIENCE

Frontend Developer

Ambassadors

📅 11/2021 - Present 📍 Amsterdam

🌐 <https://www.ambassadors.com>

- Migrating Cube from Sencha.js to React as part of a multi-year project
- Expanded a styled components library for reusable styles, optimizing performance, managing a library with 80+ components.
- Achievement: Improved productivity by 15% as well as code reuse by developing a custom React UI component library, and creating wire-framing client briefs using Figma.

WordPress Developer

Project V

📅 12/2017 - 2020 📍 Cairo

- Developed custom plugins for 8 projects, enhancing website functionality and user experience.
- Implemented CDN that reduces latency and improved website performance.
- Improved website load times by 20% on 12 WordPress projects by optimizing images and code.

UI Designer

Project V

📅 05/2014 - 11/2017 📍 Cairo

- Conducted user research and usability testing to understand user needs and identify areas for improvement for existing products.
- Designed multiple versions of mood board directions and interfaces and visuals that improved client's approval by approx 27%.

EDUCATION

MERN Stack Web Developer

HackYourFuture

📅 03/2020 - 08/2021 📍 Amsterdam

- 7-month coding boot camp with modules on HTML, CSS, JavaScript, Node.js, Express.js, MySQL, and React

Bachelor of Science in Management

SAMS

📅 09/2005 - 10/2009 📍 Cairo

- Studying Management Sciences has refined my skills in comprehending user needs, nurturing teamwork, and adjusting to dynamic environments.

SKILLS

UI / UX

React.js

Tailwind

Next.js

Javascript

Node.js

Typescript

Scrum / Agile methodology

Git

ACHIEVEMENTS

Refactored legacy code by 20%

Resulted in more maintainable code that adheres to ES6 standards

Self-learned/incorporated Framer Motion in my website

In less than 2 months, I self learned and incorporated web animation based on user interaction on my [online portfolio](#).

PROJECTS

Migrating Cube app to React

📅 02/2022 - Present 📍 Amsterdam

As part of team of 3, we are working on fully migrating [Cube](#) to React from Sencha.js

STRENGTHS

Go-getter

Shifting careers from management to programming taught me that realistic goals are achievable.

People skills & collaboration

Being in the intersection of multidisciplinary teams added to my collaboration and teamwork skills.
