Employment history

Nov 2021 - current   [**Ambassadors**](Ambassadors)   **Front-End Developer**

As part of the creative automation team Cube Compose ™, I help building scalable web-based templates that help brands automate, create, manage, distribute and scale up their on content smarter.

- Working on Cube's dynamic templating system Compose™, I build custom web templates using HTML5, CSS3+, ES6/ES2015 and React.
- Wireframing web templates using Figma, Sketch and Photoshop with UX and user friendliness in mind.
- Testing throughout the development phase and taking part in the QC process to make sure templates scale up according to client's needs.

Nov 2014 - Mar 2020 [**Project V**](Project V)

Jan 2017 - Mar 2020

UX Designer
- Managing client proposals from typesetting through to design, print and production.
- Developing and maintaining design wireframes and specifications.
- Working with creative directors to incorporate a visual or brand identity into the finished product.

Nov 2014 - Dec 2016

Digital marketing specialist
- Managing marketing campaigns (SMM, email, PPC) and targeting to efficiently use allocated resources.
- Creating and test marketing hypothesis

Education

2020 - 2021   [**HackYourFuture**](HackYourFuture), **Full-Stack Web Development** | Curriculum
10-month software development programme with modules on HTML, CSS, JavaScript, NodeJS, ExpressJS, MySQL and React.js.

2014 - 2015   Adobe-certified Graphic Design Diploma, RCC, Cairo

2005 - 2009   SAMS, BSc of Science in Management
